WORKING IT OUT

# WHAT IS A SPEED APPLICATOR?

## SAVE VALUABLE TIME

Applying masking tape onto vinyl has never been easier! Fast and easy, without wrinkles or bubbles. Despite its compact size, the Speed Applicator is fast and the most efficient machine of its kind.

The Speed Applicator can be mounted on your work table or on a flatbed laminator - you have always your application tape roll available!

## TYPES OF VINYL

There are no limits to the types of vinyl you can apply with the Speed Applicator: cut texts, labels or other forms of print'n cut.

## THE ERGONOMIC SOLUTION

Protect your employees shoulders and back. The machine is operated by a handle, and can be operated by anyone.

# WHAT IS YOUR SIZE?

## SPEED APPLICATOR SP43
