

# ERGONOMIC SIGNMAKER TABLE

# ERGONOMIC SIGNMAKER TABLE

## TILTING FUNCTION

The table can be tilted at an angle up to 22 degrees, both left and right. This function gives you the opportunity to always work ergonomically correct.

## ADJUST THE HEIGHT

You can adjust the height between 84 and 114 cm. This allows all users to work at the perfect height. Also It's ergonomically to have a low table with heavy job, and a high table for details. The control panel is available on both sides of the table.

## BUILT-IN BATTERY

The table has a built-in battery, that makes it possible to operate in places without power. You can use the battery for one week, and then you need to charge it again. The table has a memory setting, which allows you to set it to a specific height, and then the table will remember that.

# FUNCTIONS SIGNMAKER TABLE

## Sturdy actuators

Every corner of the table is fitted with an actuator by Linak - one of the leading producers of high quality actuators.

## Anti-static wheels

The anti-static wheels prevent static buildup, when the table is moved. They can be locked in place to ensure your safety.

## Build-in shelves

In both sides you'll find build in shelves for convenient storage of your tools

## 5mm cutting mat

The cutting mat is self healing, and enables you to cut directly on the table without damaging it.

## Application dispenser

Can be used for application tape, vinyl and print. Now 1 person can do two man job.

## Ergonomic

The table is build to last, and provide you with an ergonomic way to do your work.
